Do's for Applying Laminates

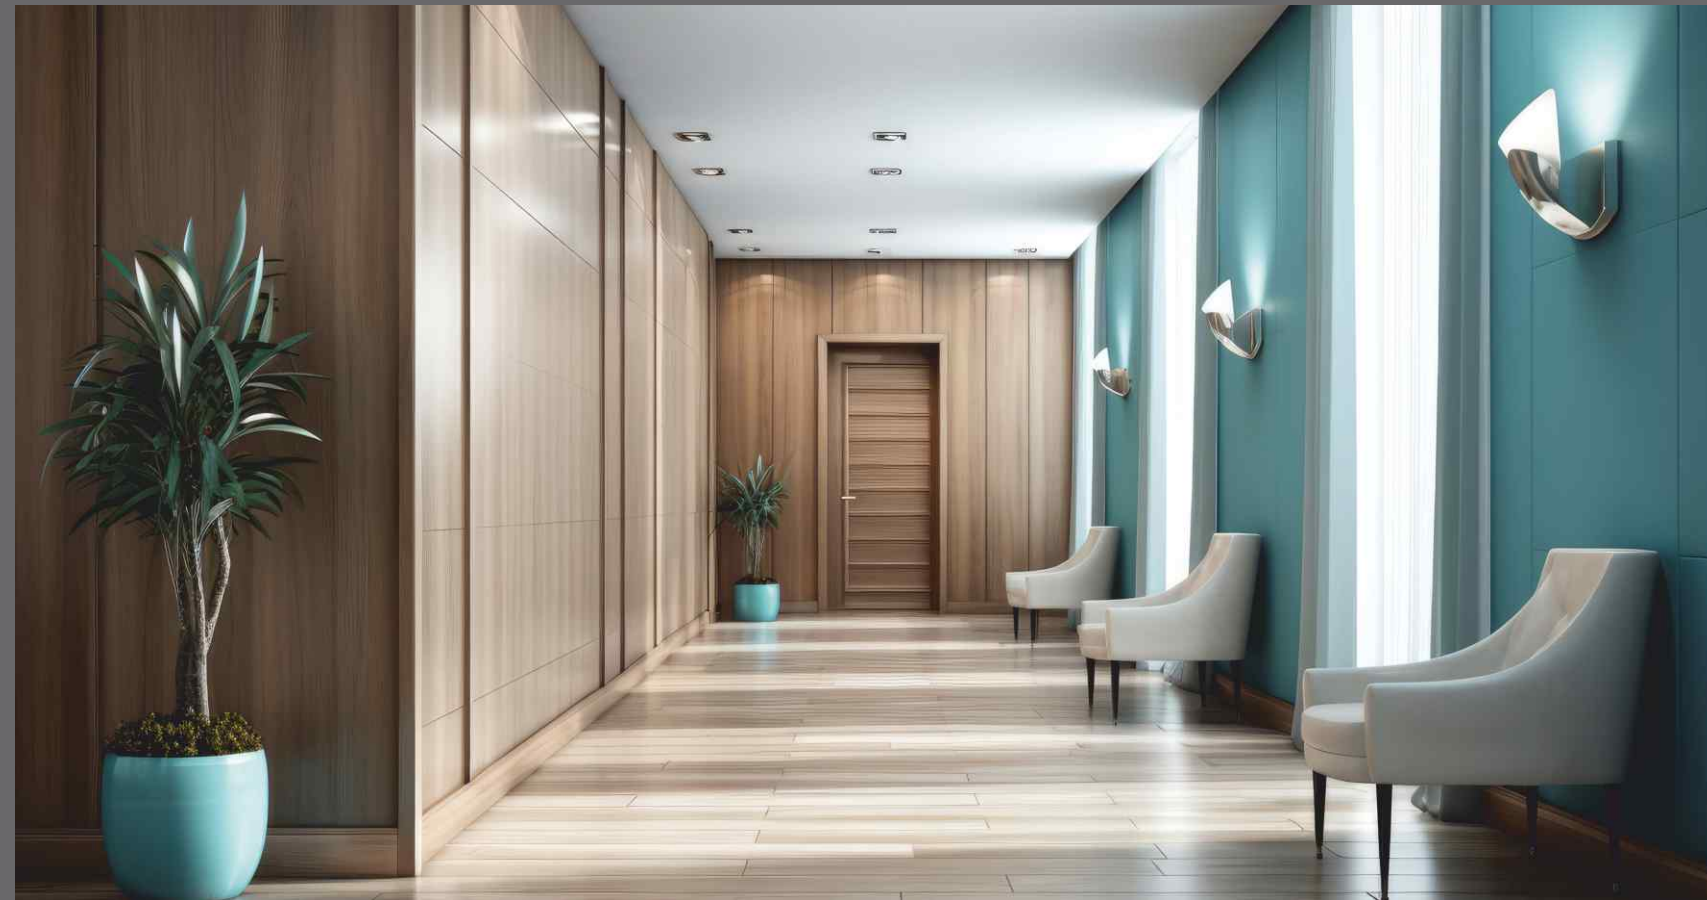

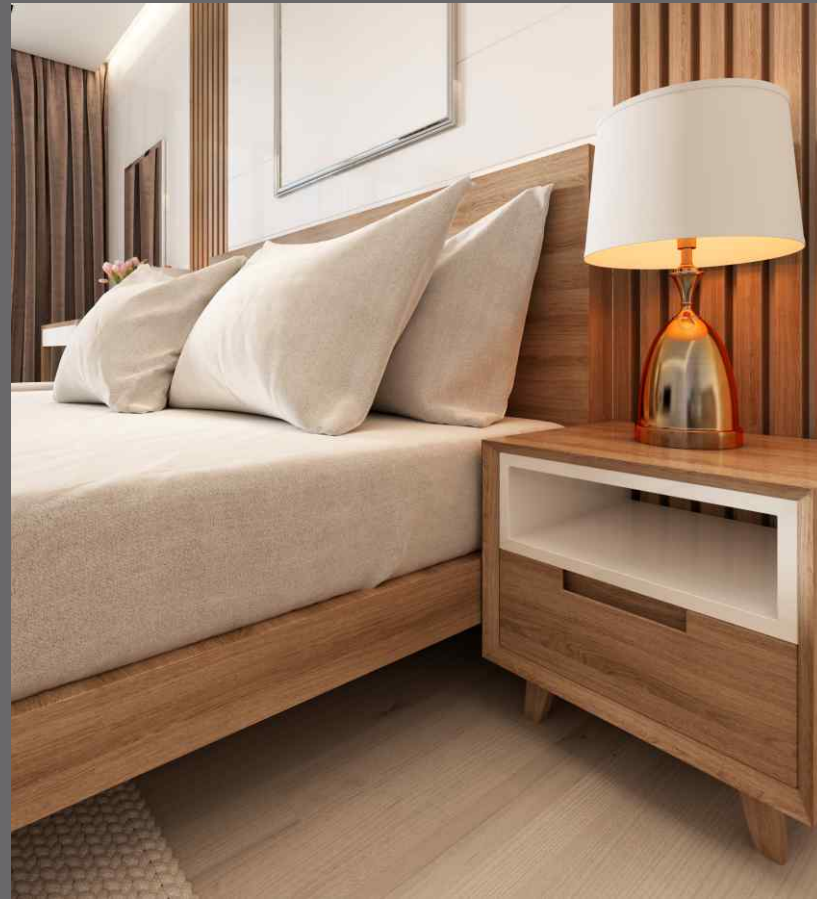

- Clean Surface.
- Ensure the surface is clean and smooth before applying laminates. Measure Precisely.
- Measure accurately and cut laminate sheets accordingly. Right Adhesive.
- Use the recommended adhesive for the specific type of laminate, Ventilation.
- Work in a well-ventilated area when using adhesives, Even Pressure.
- Apply even pressure with a roller for a secure bond.

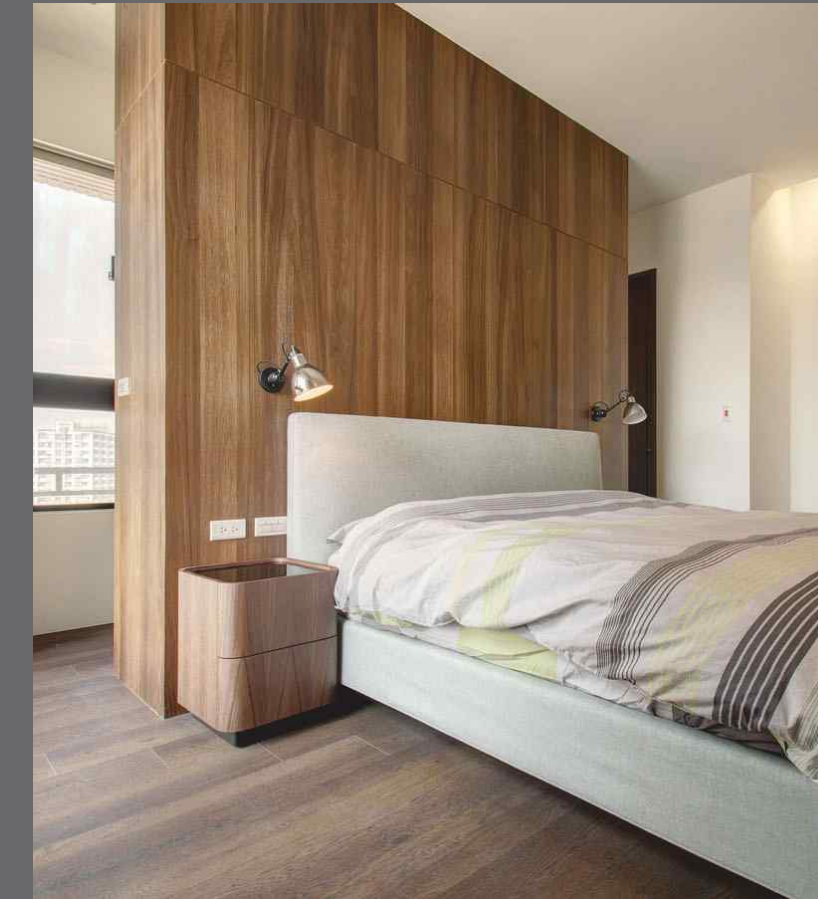

Don'ts for Applying Laminates

- Surface Neglect
- Don't apply laminates on a dirty or uneven surface, Hasty Cutting.
- Avoid rushing the measurement and Cutting process, wrong adhesive.
- Don't use an adhesive not recommended for the laminate, Poor Ventilation.
- Avoid working in poorly ventilated spaces When using adhesives, skip inspection.
- Don't skip inspecting for defects or bubbles after application.

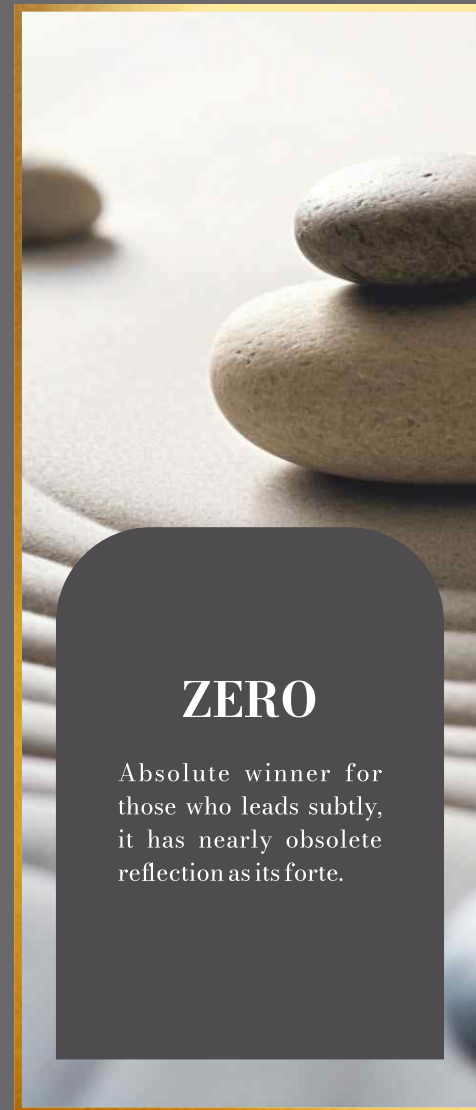

SYNCRO

A meticulous blend of technology and tasteful aesthetics, the minute crevices and crannies are precisely laminated with top layer film.

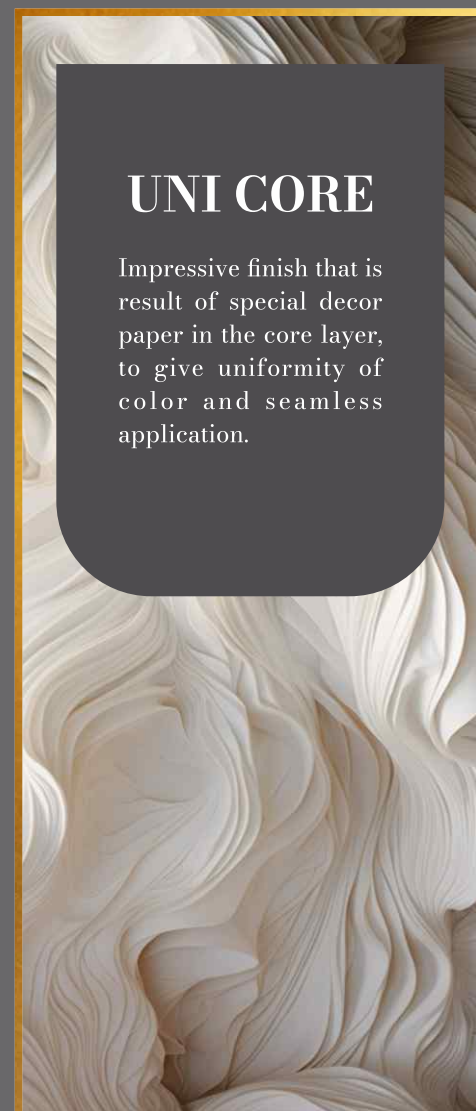

ZERO
